

Hostel Games

TANMAY &
SARTHAK

*A Maze-based
Treasure hunt
for those who
think they know
the campus too
well.*

Choose the color of your Avatar and press start to begin!!

Game

Rules:

Beware of
misguided
attempts:

- Any wrong attempt would lead to a penalty for that problem, leading to a decrease in achievable score.
- So, make sure you know what you're doing before going for any "intelligent guess".

After several wrong
attempts

The Yulu Dilemma:

- Now you can roam around the campus in your favorite Yulu bike.
- Moreover, getting on a Yulu triples your speed. Sounds cool, right? (Shh...There's a catch)
- Getting on a Yulu reduces the score of the players at a rate of 1 point per second. Small price for bigger goals?
- Since the scores cannot be negative, thus using Yulu when your score is 0 does not do any harm.

Random Gates:

- Each new Player gets spawned to a random gate for entry.
- You must Identify the gate as soon as possible, else you're doomed to lose!!

Contr

ols: The Arrow Keys:

- Use the arrow keys up, down, left, and right to move your character in the corresponding direction.
- You might want to move diagonally, for that just press the keys together!!

The Space

- Use the space bar to spawn/leave a Yulu Bike.
- This can only be done when appropriately near a Yulu stand.

The Tab button:

- Use the tab button to open the hints bar.
- This bar shows the hints unsolved in Black and those solved in the respective colors of the Solver.

The Left Shift:

- Use the Left shift to show the current scorecard of the game.
- You'll be able to know the scores of all the players and devise a strategy accordingly.

Top right corner after pressing
left shift key!!

The M button:

- Push the 'm' button to bring out the Global map of the campus.
- This might help you in identifying where you stand with the help of buildings nearby.

The Number Keys:

- When sure of your answer, hit the number key corresponding to the question number to score the points allotted.
- Reread the “sure of your answer” once again...

Thank

You!!
